

FactorTM Small

Optical Performance
Heat Management
Long System Life
Reduced Maintenance

FACTOR™ Small delivers a variety of efficient lumen per watt packages with excellent optical performance. With its precision engineered optics and sleek body design - perfect for dissipating heat away from the LEDs and extending the luminaire life, FACTOR Small gives the complete cost saving solution for street lighting environments. With a range of delivered lumen packages equivalent from 35W to 150W ceramic metal halide lamps, FACTOR Small delivers efficient sustainable lighting solutions that have the flexibility to meet today's and tomorrow's lighting requirements.

FACTOR Small's design ensures cool operation that keeps it running for the long haul.

- optics / light source**
- > Lumen package of between 2,000 - 14,000 lumens
 - > Three lighting distribution options
- applications**
- > S-Class, ME-Class, Pedestrian Areas, Residential Areas and Car Parks

TM66 CEAM-Make rating

Preliminary Rating: 2.3 (Definite/ substantial progress to circularity)

approvals

Complies with EN60598
CE
IP65 light engines
TA: Rated for -40°C to 40°C

Delivers a variety of lumen packages

Tool less trigger latch entry

10 LED Board – LA024 & LA034 versions

External fins to dissipate heat

specification

The ‘finned’ luminaire body, designed to dissipate heat, is manufactured from high pressure die cast aluminium that conforms to EN1706 AC-46500. A die cast aluminium door with tool less trigger latch allows access to the gear compartment concealing the IP65 control gear and connectors. The IP65 LED optical modules, with individual lenses, are mounted directly to the cast aluminium housing and wired in series. A thermal transfer interface is sandwiched between the LED module(s) and high grade aluminium housing to transfer heat away from the LEDs and dissipate through the ‘finned’ housing for cooling. FACTOR Small has been specifically designed for side entry mounting suitable for 42mm side entry. Option of 60mm version is available with code .SE60. 3000K or warmer must be selected for IDA dark sky certification.

features and benefits

Sleek Design with tool-less access

- > FACTOR Small’s diecast aluminium housing acts as its primary heat sink. Its longitudinal fins employ conductive cooling techniques to dissipate heat away from the key LED components and extend luminaire life.
- > A die-cast trigger latch allows easy tool less access into the luminaire during installation and maintenance visits.

Exceptional Performance

- > Offering four lumen packages ranging from 2,000lm to 14,000lm with efficiencies of up to 139lpw (Lumens Per Watts).
- > Two optimised roadway distributions (asymmetric, forward throw and long & narrow) delivered by quality LEDs and bespoke UV stabilised optics
- > LED light engines with 0% ULOR ensuring night time friendly.

Fully Maintainable Performance

- > Single tool-less latch access to the luminaire ensures straightforward entry to the luminaire at installation and maintenance.
- > Unique IP65 rated LED light engines that are interchangeable ensuring a futureproof and maintainable LED luminaire.

light distribution

weight

Factor Small	7.0 kg
--------------	--------

windage (effective projected area)

Factor Small	0.071 m ²
